LITTLE CRAFTY HANDS

EDITORIAL

Art and craft activities enable children to learn to trust their ideas and to explore what is possible , and here in the 'Little Crafty Hands Club', we inspire the young minds to think and display their creativity & expression. The various activities planned under this club help them enhance their fine motor skills, become demonstrative, creative and more confident. The activities increase their finger dexterity and enhance patience, imagination and problem-solving skills. And above all, they add an element of fun & enjoyment and take learning beyond books. The activities are conducted in such a way that an oral explanation is given but it is believed that in craft work, there are no mistakes, just creation. So, children feel free to experiment and make changes, they are free to invent new ways of thinking, which extends well beyond a craft room. Children are able to express their ideas in beautiful, creative and unique craft pieces.

Club Masters

Megha Arora

Gopika Kareer

Crafty Sticks

The first activity of 'Little Crafty Hands' club was designed to ignite love for craft in students. Conducted on 25.04.19, the activity included making of alligators using simple craft material like pipe cleaners and popsicle sticks. Kids were excited and happy to get involved in the activity. The decorative alligators, that reflected the imagination and creativity of the students were indeed a treat for the eyes.

Cutie Dragon Flies

Making Dragon Flies on 25.7.19 was surely a delightful experience for the students. They created attractive craft pieces using materials like hand-shaped cutouts, ice-cream stick, googly eyes etc. The teacher not just explained the method of making the dragon flies, but also apprised the students of the little insect. The students performed the activity with great zeal and were happy to delve into the creative world.

Puppet Fun

A fun-filled activity of making a puppet using socks and cotton was held for students on 29.8.19. The teacher demonstrated it with the help of pictures and videos related to it. The activity was quite easy to do and the children enjoyed making cute puppets out of waste items in no time. They also tried narrating stories using the puppets they had created.

Paper Folding Craft

The all time favourite , Paper Folding Activity was organised for the children on 26.9.29 wherein they learnt to make beautiful Paper Dolls with origami sheet, satay sticks, wired sticks and paper cutouts. The children made lovely dolls by folding papers of different colours on a stick. They followed their club master, step by step and created wonderful craft pieces.

Recycle Reduce Reuse

The club activity held on 24.10.19 was aimed at sensitizing the students towards the need to reuse and recycle. The children learnt to make a fish with the help of an old CD and paper cutouts. The children made colourful fish with the help of a tutorial video shown by the teacher. She assisted the little learners and gave wings to their imagination which resulted in creation of art pieces out of trash.

Crafty Plates

The club activity - Crafty Plates conducted on 28.11.19 was aimed at providing a platform to students to showcase their creativity. They created India's National bird, peacock using disposable plates & paper cutouts and decorated it with glitter, bindis etc. The activity concluded with the little hands holding their masterpieces with pride and excitement.

Jewellery Craft

The activity organised on 30.1.20 was eagerly awaited by the little ones. In this activity, students learnt to make beautiful Rose Rings. They made beautiful rings using a pipe cleaner. The activity was simple yet interesting and the outcome was a colourful velvet textured ring.

Flying High- My Mini Plane

The activity 'Flying High - My Mini Plane' was organized on 20.02.20. In the activity, the students made a mini aeroplane using a wooden cloth-clip and it gave them yet another opportunity to enhance their creative skills. The activity was enjoyed by all and the joy of creating a toy was reflected in their ear to ear grin.

PARENTS' DIARY

At first I thought it would be difficult for the kids to do the activity - Flying High- My Mini Plane but they were taught in such a manner that they all succeeded. They made the planes with such an ease and felt great about their own achievement. It was a completely a different and amazing experience for them. The school has taught our kids not only to learn theories but also to understand and implement them. Doing activities like this helped my child in enhancing her skills and also developed her personality.

Kanika Sharma M/o Sarisha Sharma III G

The activity of ring making was fantastic. It was so nice to see such a beautiful piece made out of strings by just twisting it. My daughter enjoyed making and wearing it.
