MONTESSORI DEPARTMENT

## Headmistress' Message

Education has important role in the life of an individual and it cannot be over stated. It shapes individuals for their present and future and inculcate values in them that would govern all their choices in life. Man of character is the real pillars of the nation, so school education is the foundation of character of an individual.

The habit of study, the love of learning and the quest for truth, the responsible use of freedom, personal integrity and a willingness to help improve society, are especially important. In Bal Bharati Parivaar, Education does not mean only to literate. It means literate is wisdom.

Our effort is focused not only on pure study but also on providing opportunity to each child to explore his or her own capabilities and area of interest. For this, we have provided each child with many activities both co-curricular and extracurricular through the digital mode to help the child become the best person he or she can be. Excellence is achieved when each person is helped to continually develop his or her potential as an individual and a member of society.

In Montessori, we strive constantly to meet the needs of our children, in order to enable them to meet the requirements of the present and future. We realize the importance of this crucial phase in the life of a child and provide each child with opportunities and activities to achieve this aim.
