

**PRIMARY DEPARTMENT
PUSA ROAD CAMPUS**

Astronomy Club

January 2023

Classes: I, II and III

Flying Saucers

"Astronomy compels the soul to look upward and lead us from this world to another."

-Plato

Dear parents

With the aim to increase a sense of excitement and wonder amongst the students, Astronomy Club has once again organised a very fascinating activity for our young learners, i.e, FLYING SAUCERS. Flying saucer is a round, flat object seen in the sky which is beleived to be a spacecraft from another planet.

***Follow-up Activity* -**

Students will make a flying saucer using colourful craft papers, popsicle sticks, scissors, glue , googly eye and black and pink marker.

Please click on the link attached and make your ward watch the club activity video.
