Reading Marathon - Readathon 2023

Dear Parents,

We are excited to announce that the British Council has come up with Reading Marathon - Readathon 2023 and their new batch is starting from Saturday, 27 May 2023. As this is a curated programme to encourage reading habit in children, the students can be a part of this programme and make their summer vacations fruitful.

The British Council Readathon is an online challenge that encourages children between the ages of 7 to 12 years to read for an hour every day for 21 days.

This challenge is designed to develop the reading habit among children and help them strengthen their reading and listening skills. Additionally, the program offers expert-curated workshops on writing and speaking skills that will boost their creativity and critical thinking. Children will also have the opportunity to network with others, share their reading experiences, and learn from their peers.

As a participant of the program, the students will receive one-month FREE access to the British Council's online library and a reading log - printable template to be used during the readathon. They will also participate in two specially designed workshops during the three-week readathon to enhance their writing and speaking skills. Upon completion, they will receive a Certificate of Achievement endorsed by the British Council.

The program fee is INR 1200 per participant, but the students of our school can avail of a subsidized fee of INR 950 per participant by using a promo code.

In case you are interested in making your ward a part of the programme, please inform the class teacher latest by Saturday, 21.05.23. The link for registration will be shared with you once you give your consent for the programme.

Regards
