ABOUT THE SCHOOL

Since 1944, Bal Bharati Public School has championed the cause of nourishing our rich culture, heritage and tradition while maintaining a progressive attitude towards the future needs, fostering academic rigour with a caring heart, and appreciating individuals with the warmth of a cohesive school community. Today, in a world where society is increasingly fragmented and polarized, our school remains a community where honesty and integrity matter, sincerity and hard work are equally important values, and where the process of education is as important as the grades.

Central to our efforts to build an intellectual community is our dedicated faculty. Intensely devoted to the success of their students, the faculty serves as teachers, coaches, advisors, mentors and friends. In every area of school life, the faculty seeks to challenge and inspire students to reach new levels of enquiry and understanding.

We are a school community of high expectations, academic and otherwise. At the same time, we are devoted to helping students develop intellectual, artistic, and personal interests contributing to holistic growth of each individual. Provision of all modern facilities, well planned activities and a structured teaching approach makes learning a fun-filled process.

The success of our school can be attributed to our ability to continually identify and respond to the changing demands across the dynamic education sector, as evidenced in the prestigious seals of excellence received by us over the past many years. Our success lies with our students as well, as they continue to enhance our reputation and make a positive impact on today's global demands. Our very committed parent body also upholds our common ideals and aspirations as we create a challenging and enriching educational experience for our students.
