Class II

PRIMARY DEPARTMENT

Summer Assignment: Class II

Session 2024-2025

The summer break serves as a crucial period for students to unwind, recharge, and explore new avenues of learning beyond the classroom. It offers a valuable opportunity for personal growth, creativity, and academic enrichment. Recognising this significance, we have curated an exciting mix of activities and project work for students.

These carefully selected assignments aim to not only keep young minds active but also foster creativity, critical thinking, and a passion for discovery. Each task is designed to align with students' interests and age groups, covering a range of engaging themes from nature exploration to artistic expression and scientific inquiry.

Through these activities, the students will have the opportunity to expand their horizons, develop essential skills, and cultivate a lifelong love for learning. We encourage parents to support their children in this endeavour, providing guidance and encouragement along the way.

Together, let us aim to make this summer break both enjoyable and enriching for the children, ensuring that they return to school with renewed enthusiasm and readiness for the academic year ahead.

Theme: Travel and Tourism

Travel and tourism are exciting skills that enable children to explore the world around them. They learn about different cultures, landmarks, and ways of life. By visiting new places, they develop curiosity and a sense of adventure. They discover the beauty of nature, the wonder of historical sites, and the joy of trying new foods. Through travel, children broaden their horizons, make memories, and forge connections with people from diverse backgrounds.

The assignment delves into the exploration of various states of India. Through this endeavour, children will embark on a journey of discovery, learning about the diverse cultures, traditions, and landmarks across different regions of the country. By researching and presenting information about different states, students will not only expand their knowledge but also develop their research and presentation skills. This assignment aims to foster a deeper understanding and appreciation for the rich cultural heritage and geographical diversity of India among children.

(Note-In line with our commitment to sustainability and environmental responsibility, we request you not to use thermocol in your projects.)
